Good Afternoon Professor Kauffman,

I want to apologize. I somehow missed turning in the climate change related homework, I did miss class the day it was due because I was sick, but thought we had nothing due that day. I was going through my emails and saw the assignment. I am hoping that you will still accept it for some credit, attached is that assignment below. Also, I would like to present on Monday if possible! Here is the link to my presentation on Electric Vehicle Infrastructure in Delaware. Thank you so much!

Have a great weekend,
Rachel Gaebel

Homework for UAPP225
